External worker management with SAP Fieldglass at Petroleum Development Oman

August 2021

PUBLIC

Why using SAP Fieldglass in the Oil and Gas Industry?

Business requirements

A volatile and competitive oil and gas market demands high flexibility and effective processes when engaging the growing number of external workers. Conformity with compliance guidelines, increased productivity and full transparency on costs are important requirements for companies when selecting a digital solution for work force management.

- ✓ Fast and flexible digital process
- ✓ High usability and efficient operation
- ✓ Full transparency on hours and costs
- ✓ Compliance-conform and secure

Why SAP Fieldglass and the ASAPIO Integration Add-on?

SAP Fieldglass helps PDO to initiate, engage, manage, and complete all projects with contingent workers, all with one cloud-based solution – fully integrated with the existing SAP landscape.

Requisitioning

Supplier collaboration

Worker onboarding

Digital timesheets

Digital invoices

Implementation Success Story

Challenges and objectives

Petroleum Development Oman (PDO) chose SAP® Fieldglass® for the management of contractors and external workers. The seamless integration with established procurement processes of the SAP ERP® system was one of the key targets of the implementation project. Therefore, PDO decided for the ASAPIO integration solution.

Products in scope

- ✓ SAP Fieldglass Contingent Workforce Management
- ✓ SAP Vendor Invoice Management by OpenText®
- ✓ SAP ERP
- ✓ ASAPIO Integration Add-on for SAP Fieldglass

Implementation highlights

- ✓ Provide a single solution with high usability for external worker requisitioning, contracting and time recording.
- ✓ Full integration of cost objects and users, as well as business process integration of purchase requisitions, purchase orders, service entry sheets and invoices
